

adaptable casegoods

MODERN. TIMELESS. ADAPTABLE.

Flux is a family of endlessly adaptable casegoods made for the ever-changing workplace. And to tie it all together: clean, modern, residential-inspired style.

meet Flux.

**FOR THE
MINIMALIST.**

Horizontal grain creates a streamlined, modern look. Elevated storage feels light and approachable, and keeps clutter under control.

feeling **TRENDY.**

STAYING TRADITIONAL.

Flux proves that classic desk configurations that extend to the floor can still integrate flexibility, with features like adjustable height work surfaces.

SLIDE OVER.

—

Easily transform from individual workstations to group meeting spaces. Sliding markerboard doors keep personal items private and contained and reveal integrated TVs for presentations.

SQUEEZE RIGHT IN.

Elevated legs, light-scale storage, and integrated technology fit right into virtually any space, even when space is limited. Tables on casters conform to any work style, even if that changes daily.

The future is in Flux. Open plan stations break down barriers, flex to different ergonomic heights, and play double and triple duty as individual, collaborative, and meeting spaces.

TIDY UP YOUR TECH.

Integrated, split-top wire channels keep cords out of sight and make it easy to plug in devices along the channel. Removable, magnetic panels provide easy access to outlets.

BUILD HARMONY.

In addition to built-up casegoods, Flux features modular pieces that can be assembled into whatever configuration works best.

peninsula desk mounting
A peninsula desk mounts to the top of a credenza, either flush to the back or inset five inches.

mobile pedestals
Mobile pedestals are available in two heights, with an optional cushion top to double as a pull-up seat.
